Claims information:

In the event that your car is deemed to be either a statutory or financial write-off, we will not pay more than the market value of your car immediately prior to the loss or damage. We will determine the market value of your car to be the monetary value you could reasonably expect to pay for your car had you bought it immediately prior to the loss or damage. This will be determined by other cars available in the market of comparative make, model, engine capacity, age, mileage, ownership history, general condition and any other relevant factors. We may use an independent specialist firm to determine the appropriate monetary value.

A statutory write-off means that a suitably qualified assessor has deemed the car no longer fit for return to the road and should be either destroyed or rendered for parts.

A financial write-off means that the car can be repaired to a safe condition but the cost of repairs renders it uneconomic to do so.

All incidents must be reported to our Emergency Services phone numbers:
